

## Science Activity 5

### Air - Bubbles

**Air is all around us but we cannot see it.  
Air is a mixture of gases and will fill the space in any container.**

#### **Question-**

**Are all bubbles round?**

**Materials- bubble wands, a bowl of soapy water**

**Task-** Take one of the bubble wands and dip it into the soapy solution.

**What do you notice?**

**Try this with some different shapes.**

**Question- Where is the air in these bubbles?**
