

Science Grant Scheme

Welcome back after the Easter break! We have been delighted once again by the uptake and enthusiasm from Renfrewshire schools and we have now disbursed grants to 76% of all state-funded primary schools, stand-alone nurseries, and special schools in the area! There are still 15 schools who have yet to apply this year. The deadline is the end of the school year – 26th June – but please send in your application form in good time as we may need to discuss it before a grant can be approved.

There are also 13 schools that have had a grant but not the full £550. Please contact us if you are not sure whether your school has had the full grant!

£550 towards a science project!

All you need to do is fill out our simple application form. You can apply for any of the following:

- ◆ Science equipment
- ◆ Science visits or workshops (**a date is required when applying!**)
- ◆ School science weeks or projects
- ◆ Gardening resources (**max £350**)
- ◆ Developing an outdoor science area (e.g. ponds)
- ◆ Subscriptions to science services (e.g. Primary Upd8)

For an application form, please contact:
samantha.moore@edinatrust.org.uk

You can also contact our local consultant, **Liz Wilson**, who is happy to offer advice to schools making an application. If you aren't sure on the best way to use the grant or want to discuss anything, please contact: lizwil54@talktalk.net

Update No. 4: April 2015
Charity Number: SC033562

Reporting

Don't forget – all grants require a report to be submitted at the end of your project. This doesn't mean any extra work for you though, schools can send in existing school work and photos that have already been generated during the projects. If you don't want to send class work you can complete our easy evaluation form, just email Samantha – samantha.moore@edinatrust.org.uk for one if required.
