

Science Grant Scheme Update

Welcome back for the new term! Now that everyone is hopefully feeling refreshed, we would like to remind everyone once again about how you can receive **£550** towards science teaching at your school.

We have had excellent uptake of the grant in Renfrewshire this year. Every eligible school has successfully applied to the scheme and the Trust has given out **over £34,000** to schools in Renfrewshire! A big thank you to all of you for your enthusiasm and commitment to science education, and to our Renfrewshire consultant Liz Wilson for all her continuing hard work and support!

We would like to remind everyone that, even though you have already received a grant, if it was under £550 you can still apply for the remainder before the end of the school year. Perhaps it could be used for stocking up the science cupboard with some new equipment, or put towards outdoor activities during the summer term?

Thank you all again and we hope to hear from everyone next year as well!

Points to note:

- Take a look at our website for ideas and information:
www.edinatrust.org.uk
- Please contact Samantha samantha.moore@edinatrust.org.uk for an application form or a report form.

For ideas and assistance with application forms or science projects, please contact the Trust's consultant located in Renfrewshire, **Liz Wilson**, at lizwil54@talktalk.net

Update No. 1: 30th April 2014
Charity Number: SC033562

Have you completed a report for us?

We ask that schools send us a short report after receiving the grant, for example your thoughts on the equipment you bought or how the trip went. We will also accept copies of work the children have produced as a report, as in the picture below. Please email us if you would prefer a form to fill out.

It doesn't need to be handed in right away, but please try to send us a report within 6 months of receiving your grant. The Edina Trust greatly appreciates your feedback and suggestions.

Remember!

The Science Grant Scheme will run in Renfrewshire for another 2 school years, so start thinking about what you could apply for next year!
