

Edina Trust

Welcome back!

The Edina Trust is happy to welcome back all South Lanarkshire primary schools, stand-alone nurseries and special schools after the New Year. Happy 2013!

Currently 62 out of 144 schools have been successful in funding their science and gardening projects across South Lanarkshire, a total of 43%!

You still have **lots** of time to apply for the first of your three annual science grants from the Edina Trust. You just need to remember:

Retrospective applications are **not accepted**.

All applications **must** include:

- * Project Description
- * Project Date (especially for a visit or science week)
- * Detailed break-down of costs

For help on filling out the Edina Science Grant application form there are tips on our website at: <http://www.edinatrust.org.uk/TipsonApplying.html>

Your school can receive up to a total of **£1,650** worth of grants over the next three years!

There's no hurry to submit your application as you have until the end of the academic year but the sooner you start planning what you want to do with your grant the sooner you can get started!

The scheme is **non-competitive**; we do not want any school to miss out! Please contact **Grace** at the Edina Trust for an application form or more information: grace.moore@edinatrust.org.uk

For ideas and assistance with the form or a science project, please contact the Trust's consultant located in South Lanarkshire:

Noleen Summers noleen97@yahoo.co.uk

Please check out our website for loads more ideas on what to spend your grant money on. We have examples from primary schools in our Scottish regions and other areas for inspiration!

Update No. 3: 11th January 2013
Charity Number: SC033562

Bulb Project

The Edina Trust is working in collaboration with the National Museum of Wales. The 'Spring Bulbs for Schools' Project gives pupils the opportunity to be part of a real science investigation where they will contribute to the final result. This is a live experiment where there are no known outcomes and no 'right' answers.

This project is a long running climate change investigation, currently involving 65 primary schools across Wales. In collaboration with the Edina Trust, this project has been extended to 50 selected Edina schools in Oxfordshire, Fife, Midlothian, the Scottish Borders and Lancashire.

The Trust plans to expand the number of schools taking part next school year (2013/14). We would very much like North Lanarkshire schools to become involved. If you're interested, please email Grace for an application form.
