

Edina Trust

Last Chance for 2012-2013!!

Update No.6: 5th June 2013
Charity Number: SC033562

With only a month left until the summer break South Lanarkshire primary schools, stand-alone nurseries and special schools are quickly running out of time to apply for the **first year** of funding from the Edina Trust Science Grant Scheme

You just need to remember:

Retrospective applications are **not accepted**.

All applications **must** include:

- * Project Description
- * Proposed Project Date (especially for a visit or science week)
- * Detailed break-down of costs

For help on filling out the Edina Science Grant application form there are tips on our website at: <http://www.edinatrust.org.uk/TipsonApplying.html>

Your school can receive up to a total of **£1,650** worth of grants over the next three years!!!

For ideas and assistance with application forms or science projects, please contact the Trust's consultant located in South Lanarkshire:

Noleen Summers noleen97@yahoo.co.uk

Those schools who have already successfully applied for their first Edina Trust science grant, it's not too soon to start thinking about next years project, new applications can be processed any time after this academic year has finished.

Also a small reminder about sending in your reports at the end of your project (or for science and gardening equipment, after 6 months), this does not mean extra work for you or your school, we appreciate any feedback we are given, such as: work generated during your project, photos of the children enjoying themselves, or feedback on any thing you think may benefit from changes. You can also ask for an Edina evaluation form by emailing **Grace** at grace.moore@edinatrust.org.uk

Edina Trust Bulb Project

The Edina Trust is working in collaboration with the National Museum of Wales. The 'Spring Bulbs for Schools' Project gives pupils the opportunity to be part of a real science investigation where they will contribute to the final result. This is a live experiment where there are no known outcomes and no 'right' answers.

This project is a long running climate change investigation, and this year involved 65 primary schools across Wales. In collaboration with 50 selected Edina schools in Oxfordshire, Fife, Midlothian, the Scottish Borders and Lancashire.

The Trust plans to expand the number of schools taking part next school year (2013/14) to 75 schools across all of our regions. We would very much like South Lanarkshire schools to become involved. If you are interested, please email **Grace** for an application form.
